CAREER OBJECTIVE

I am looking to gain experience and learn in a professional environment, while contributing with my work to fulfill the objectives of the institution. I am interested in being part of an environment where I can learn and experience the development of teamwork and group cooperation while learning major concepts that will help me professionally in the long run. I think that this opportunity will help me foster skills such as company, responsibility and cooperation in the field of work and in personal training, while also having the opportunity to learn and visualize myself career wise in the IT area.

PROJECTS

[LinkFe] [LinkBe] E-commerce Website- Full Stack Project

Tech Stack: React.js, Next.js, Express.js, MongoDB, PostgreSQL

- Developed a secure authentication system with login, registration, and session management.
- Integrated payment gateway to enable real-time transactions.
